

SOS Commander's Notecard

MWR Brand Central Download Link -- <http://www.mwrbrandcentral.com/HOMEPAGE/printmedia.html>

- **Objective**

The intent of the SOS Commander's Notecard is to provide Garrison Commanders and CSMs and installation leaders with advice on how to approach and interact with Survivors. The cards provide invaluable information to commanders including what to say and what not to say to Survivors, an overview of the emotions Survivors go through, how to address grief, an overview of services SOS provides, etc.

- **Printing the notecards**

The Commander's notecard is a six-panel layout (two-sided) that folds so the green panel with the SOS logo, "Survivor Outreach Services" and "Commander's Notecard" looks like a business-card when laid flat (see right). The two sides of the notecard are depicted to the right. Specific printing directions are available on the files. Once you open the files, you will see directions on the left side of the page on how to print and fold the cards. The cards will be printed "two-up" per page.

- **Provide the Commander's Notecards to:**

- Garrison and installation leaders including Senior Mission Commanders, Garrison Commander and CSM, tenant Commanders and CSMs and other installation/garrison personnel who interact with Survivors on a regular basis.
